

Enriched features combined with a sleek, compact footprint provide a highly reliable and enhanced user experience.

Advanced Functionality

More function capability than any other unit this size, including cash dispensing, statement printing, media dispensing (coupons and tickets), marketing messages, funds transfers, balance inquiries and more.

Compact Footprint

Compact design fits a variety of wall openings – ideal for new terminal installations or as a replacement.

Open System Software Support

Opteva® terminals are powered by Agilis®, Diebold's high-performance software, which interfaces with a variety of multiple-vendor products to decrease your need for backend support, while protecting your investment in legacy systems and existing states and screens.

Reliability

With large-capacity consumables and intelligent modules that forecast predictive maintenance needs, you can count on maximum availability for each machine.

Enhanced Security Features

Reduce risk exposure with enhanced automated teller machine (ATM) modules incorporating the latest in fraud-preventive solutions.

Simplified Service

Lower on-going operating costs result from our intuitive graphical interface that simplifies maintenance functions and makes it easy to train new branch personnel.

Opteva 562 Features

Build your self-service delivery channel upon the power of Opteva hardware, Agilis software and Diebold Premier Services®. Together, they provide everything you need today, yet enable you to add new features and functions with unparalleled ease anytime tomorrow. Turn to Diebold for the complete self-service solution: hardware, software and total services and support. Make it simple. Make it Diebold, the one company that can maximize the return on your self-service investment.

Architecture:

Minimized terminal footprint offers the most functionality for the footprint size

Ergonomically designed fascia meets all global accessibility standards
