

FUNCTION

FIT

With more and more ATMs up and running, currencies put in them can be reliably scanned for their fitness. The UW's fitness detect function is effective in reducing damaged-currency troubles and ATM's downtime.

The checkpoint at the time of fitness detection

- Corner Fold
- Tear
- Soil
- Tape

Sorting into regular and damaged currencies yields different results depending on who does it and in what physical condition he or she is. The UW-100/200 series enables you to introduce the regular/damaged standard, and to improve your productivity with speed much greater than manual labor.

SORT

Mixed currencies are counted as money received and sorted into the stackers of corresponding money types. Not hand-sorted any longer, the notes can be quickly processed, saving labor time.

ORIENT

Currencies, sorted in different denominations, are oriented face up/down and portrait up/down.

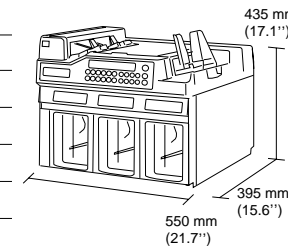

COUNT

This is a counting mode without the sorting process.

UW-100

Dimensions (W x D x H)	: 550mm x 395mm x 435mm (21.7" x 15.6" x 17.1")
Weight	: Approx. 50 kg (110 lbs)
Counting speed	: 720 notes / min.
Operation mode	: FIT, ORIENT, COUNT
Hopper capacity	: Approx. 500 notes
Stacker capacity	: 300 notes
Reject capacity	: Approx. 30 notes
Power supply	: 220V±10%, 110V±10%, 50/60 Hz
Power consumption	: Max. 116Wh (317 VA)
Printer interface	: RS-232C

UW-200

Dimensions (W x D x H)	: 1,235mm x 395mm x 435mm (48.6" x 15.6" x 17.1")
Weight	: Approx. 86 kg (190 lbs)
Counting speed	: 720 notes / min.
Operation mode	: SORT, ORIENT, COUNT
Hopper capacity	: Approx. 500 notes
Stacker capacity	: 300 notes
Reject capacity	: Approx. 30 notes
Power supply	: 220V±10%, 110V±10%, 50/60 Hz
Power consumption	: Max. 192Wh (352 VA)
Terminal interface	: RS-232C
Printer interface	: RS-232C

Currency Processor UW-100/200 Series

*High Performance, Affordable Solutions
for Currency Sorting*

Glory's Currency Sorting Solutions

The minimum-body, maximum-efficiency UW-100/200 series is now upgraded to meet wider needs. You can choose the best-suited model according to your budget, applications, handling volume and setup location.

UW-200

UW-100

Minimal Footprint

The UW-100/200 series implements a compact design suitable for many of your existing workstations. Operator movement is minimized due to an efficient ergonomic design. The UWs are 2/3 or smaller in size than other manufacturers' comparable models. They can be set up in a relatively narrow place like a small bank office.

User-Friendly Operation

Simply put currency in the hopper and press the start key, the UW will start operating. This user-friendly UW allows any operator to use the machine without any special training, reducing training and employment costs.

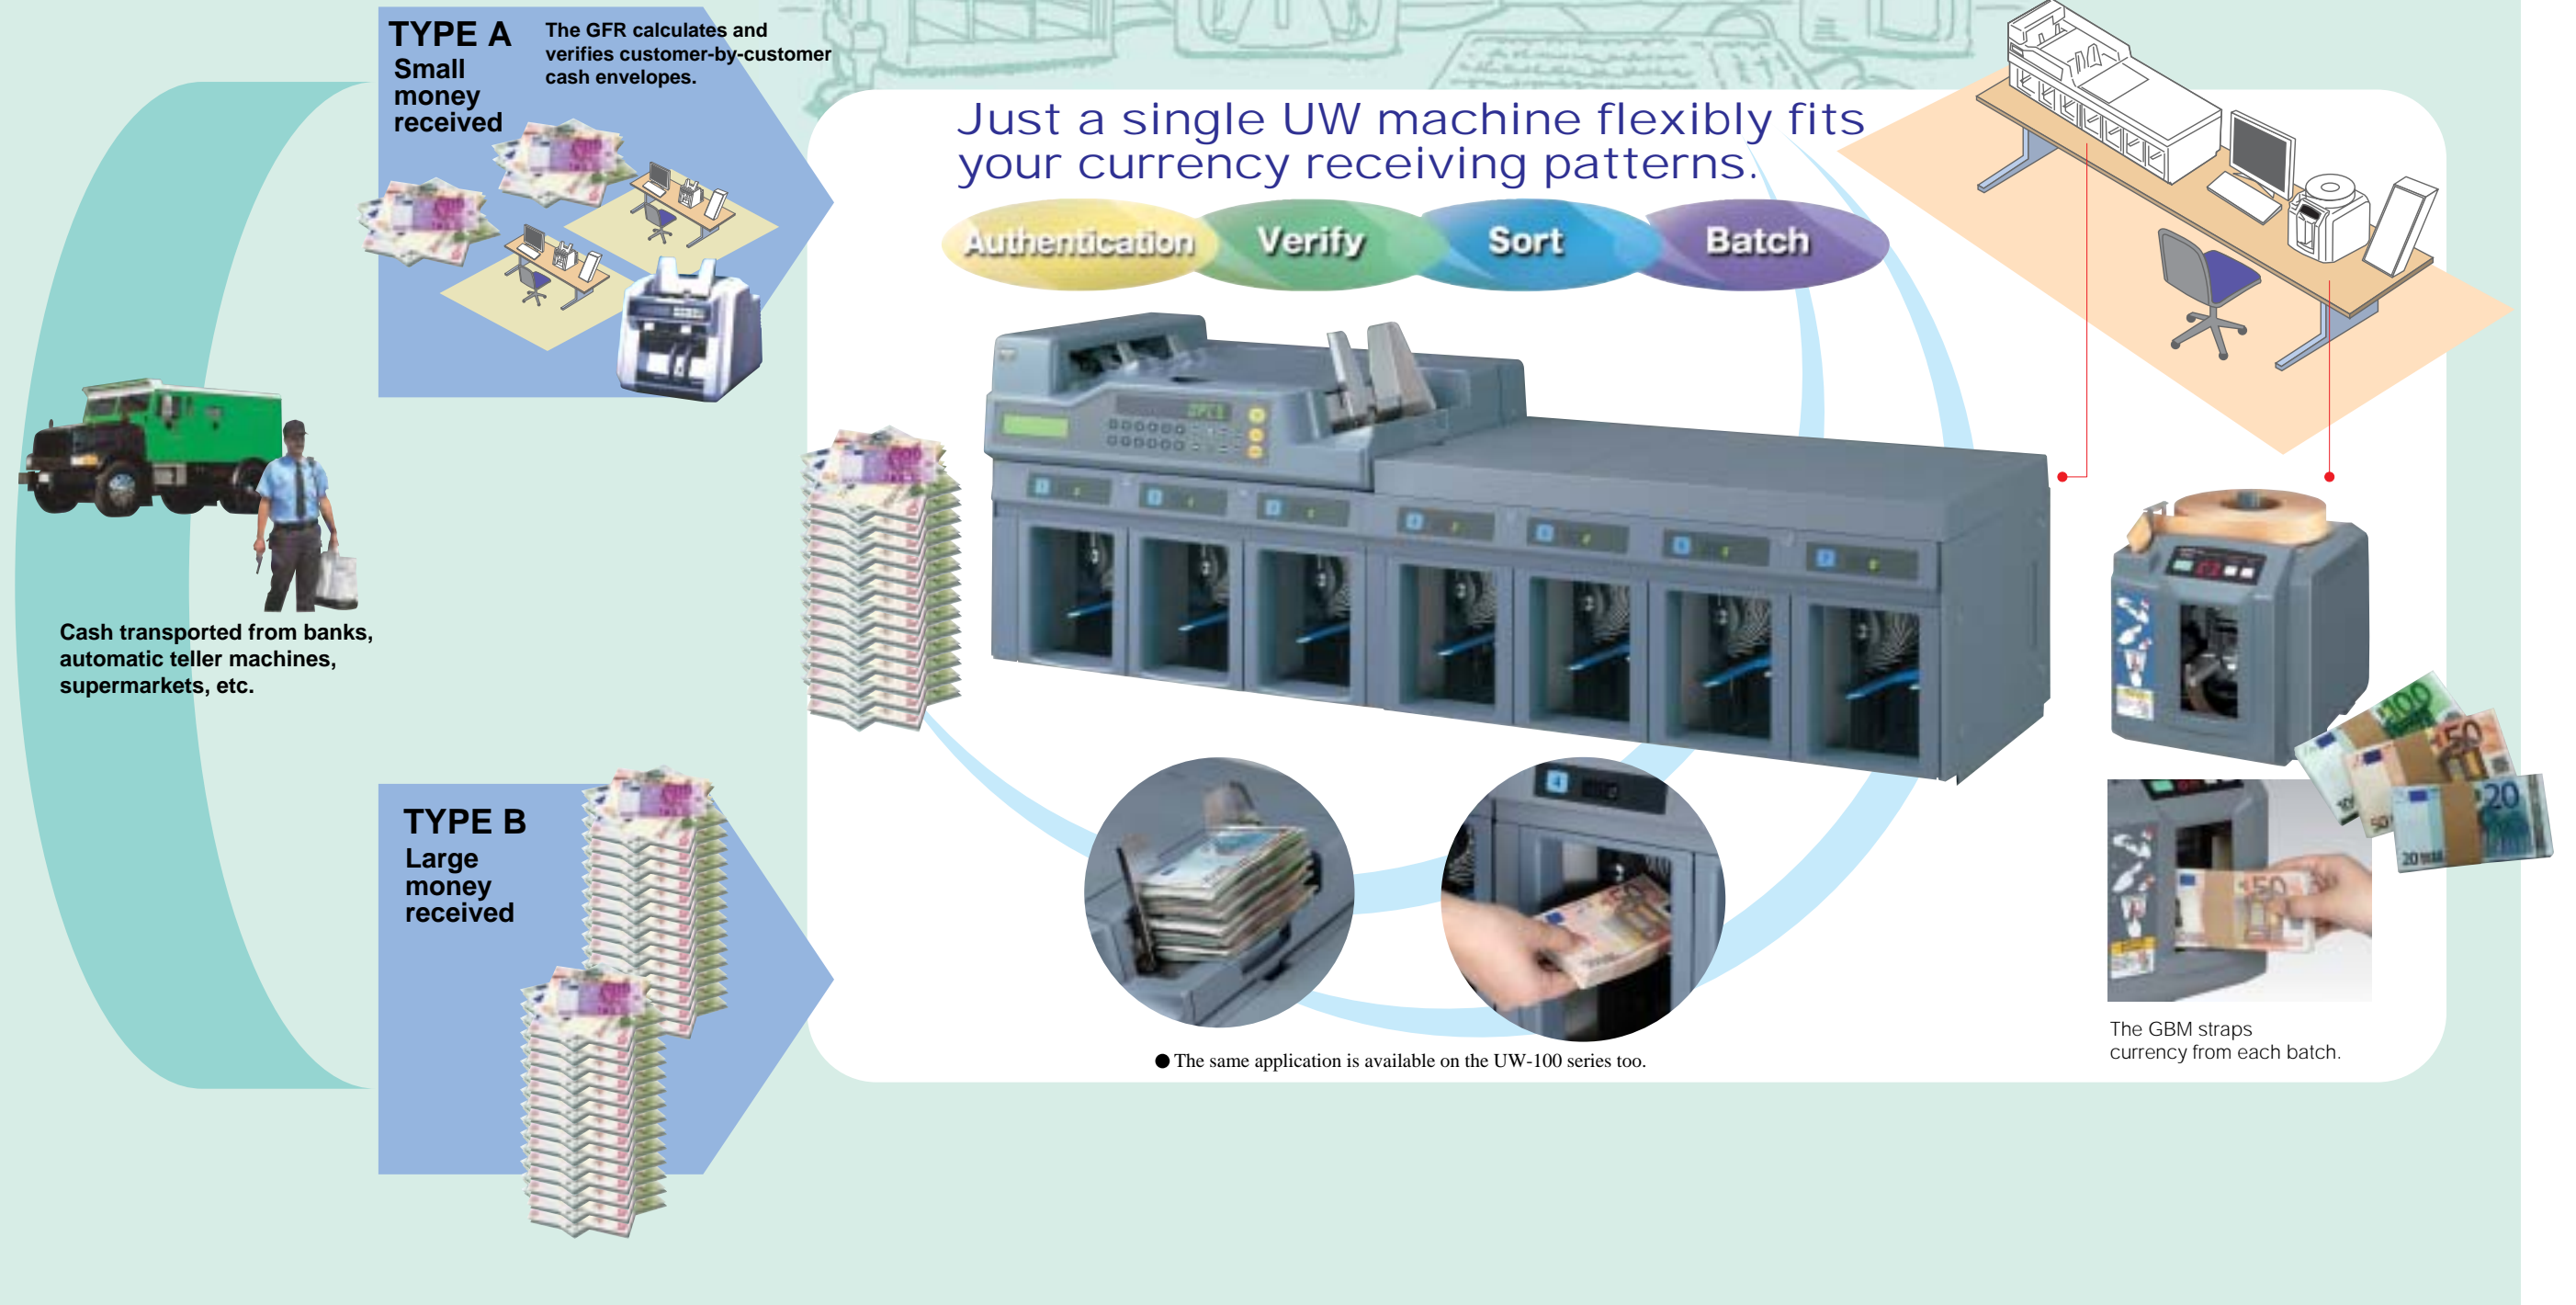

Maximizing Productivity

Using an open hopper system provides the ability for continuous counting, ensuring maximum counting operation with minimal stopping. And it can process currencies at the fastest rate of 720 notes/min. with the smallest body in its class. Maximizing your productivity, it fits your needs at an affordable price.

Option (Extension hopper)

The top-quality GLORY lineup makes your cash handling speedy and accurate. The models have proven themselves in various scenes: cash vaults, casinos, transport companies, amusement parks, etc. Compact yet high-performance, they help you cut down on your cash handling time and costs.

Glory Money Style

Flexible to meet ever-changing needs
Money-receiving stations can be added to handle various amounts of money, whether small or big.

Highly efficient and quick handling
Processes are differently divided to get your money handling jobs streamlined.
